FAQ's

> Manufacturing in China

We are committed to ensuring that we provide a solid, robust and safe to use product for all our customers. Our strict policy ensures that all our kiosks adhere to the required regulations with both labor workforce practices and product quality based on European Directives.

> Where can I buy these kiosks

In first instance contact your local KT representative and we will provide you with a contact to your nearest main dealer, they might be able to offer you quick turn around stock or help with a bespoke custom project.

> Pricing

All of KT Kiosks are priced according to local currencies and market demands, as we do manufacture in China we pass this saving onto you the buyer.
